

Alleanza Mondiale per i paesaggi terrazzati
International terraced landscapes Alliance

VITALITY

Donatella Murtas

Bergamo, 16 febbraio 2016

**1. What are they?
superb, unique
photogenic landscapes
often invisible
and unknown
until ...**

UNESCO World Heritage List 'a must' model: Cinque Terre Philippines and 15 more

2. over vitality = heritage + vitality at risk?

different places, different solutions investing in community awareness and multifunctionality

3. from exceptional to the special everyday?

Vitality is about life (vita, Italian)
a life worth of it.

5. smart as: simplicity, happiness,
on the ground creativity?

**Terraced landscapes
are a living heritage
caring for them = caring for their
vitality as a whole**
